Ext. 2150, 2174, 2259

General Information

The Center for Access of Information of Bayamon Campus provide our students and those in the Distance Education Program the service of Virtual Library. Its primary purpose is to help our users in the search for information and the development of skills from anywhere they are at. This services is available at <http://cai.bayamon.inter.edu>

The students can:

- ❖ Access the catalog online iLink, databases, electronic reserve, electronic books, complete text periodicals and others.
- ❖ Have access to the majority of the electronic resource from outside the campus.
- ❖ Use the modules or instructional guides of Information Development or training.
- ❖ Ask a Librarian online.
- ❖ Petition the loan of resources or interlibrary loans.

EDS (Discovery Service Bayamón Campus)

EDS is the instrument that you are going to use to locate all the educational resources available in the CAI. With this service you can access all resources from the CAI's databases, Online Public Catalog (iLink), and all open available in the Internet.

Online Catalog iLink

To locate the educational materials available in the CAI of the IUPR, you must use the online Catalog iLink. In this page you could find bibliographic material using keywords, author, title, subject or a combination of these.

Ask a Librarian

The CAI has the option to help the users use our virtual library or assist in the process of searching for information. On our page, students or users can fill out a form requesting additional assistance that is available on the page or by email: cai@bayamon.inter.edu

Electronic Reserve

Here you will find, digital material that professors register on the electronic reserve for the use of their student as supplement for their courses. They are organized by Academic Department, codification, course section and professor's name.

Faculty Services

CAI provides the faculty with services and tools necessary for them to use as a complementary for their courses. The page includes guides, copy write, politics for reserve material, electronic forms, upon other.

Frequently Asked Questions (FAQ)

The students can find a section of frequent questions and answers that will help orientate them in the process and services offered by the CAI.

Information Skills

This page contains instructional manuals about bibliographic skills and strategies on investigations. In addition, you could find guidelines on how to manage our resources and services available on the CAI page.

RefWorks

RefWorks is a web-based bibliography and database manager in which you must create an account that allows you to create your own personal database by importing references from text files or online databases and other various sources.

Databases

The majority of our databases can easily be access from any computer in or outside of our Campus. Instruction on how to access the databases:

- **In Campus** – access the CAI Webpage <http://cai.bayamon.inter.edu>. Click database and select the academic area of interest in the menu and then click the list of the database that is going to be used (you do not need a password).
- **Outside of Campus** – access the CAI webpage and select the option Remote Access or go through <http://cai.bayamon.inter.edu> and click List of Databases. When you select the title of the database that you desire, it will ask you to write your student Identification number (ex. Y0000000) in order to access the database.

CRCnetBASE

This database provides electronic books in the following fields: engineering, electronics, ecology, computer science, among other subjects.

Digitalia

It is a Hispanic database of e-books and electronic Journals that you could have access. There are thousands of books from prestigious Spanish and Latin America editorials, as well as professional journals on different subjects.

eBook Collection EBSCO

A database that contains all of the full text eBooks that your institution purchases from EBSCO, including eBooks from your eBook Subscription Collections, as well as single eBook titles. When you acquire an EBSCO eBook it is automatically transferred into this database.

EBSCOHost Research Databases

It also has multidisciplinary database, the majority in full text. This database includes professional journals and a database in Spanish.
